What is FruitShare?

FruitShare is seasonal organic fruit picked at the peak of flavor and delivered directly from the orchard to you. You'll receive a box every other week from Late June to just before Thanksgiving if you purchase both the Summer and Fall FruitShare. The fruit is all Certified Organic and comes from small family orchards we all feel great about supporting! Every box is accompanied by a newsletter that talks about the grower, the fruit, how to ripen and store, and suggestions on how to use. You'll get the highest quality fruit that has a freshness advantage, the convenience of fruit with your veggies, information about where and how their fruit is grown, and a food system you can trust!
